Is EnerDel a private company?

EnerDel, Inc. is a privately-held company headquartered in Indianapolis. It manufactures advanced, lithium-ion batteries and energy storage systems for electric grid, transportation and industrial applications.

Who makes EnerDel batteries?

EnerDel, Inc. is a privately-held company headquartered in Indianapolis. It manufactures advanced, lithium-ion batteries and energy storage systems for electric grid, transportation and industrial applications.

What happened to EnerDel?

Less than a month after laying off all of its workers, Anderson-based battery manufacturer EnerDel Inc. is declaring bankruptcy.

Did EnerDel file for bankruptcy?

Court filings show EnerDel filed for Chapter 7 bankruptcy on July 13 in U.S. Bankruptcy Court. In the filings, the battery maker claimed nearly \$14 million in assets and \$47 million in liabilities. IBJ reported that EnerDel moved from Indianapolis to Anderson last year after selling its Indy facility to another lithium-ion battery maker.

Why did EnerDel fail?

But EnerDel struggled to remain profitable amid sluggish demand for the electric vehicles its batteries were developed to power and faced a major setback when its primary customer, a Norwegian-based electric-car maker, filed for bankruptcy in 2011.

Do EnerDel executives live in Indiana?

Several current EnerDel executives do not live in Indiana, according to the bankruptcy petition, including CEO Steve Heir, who is paid \$639,000 a year while living in Reinholds, Pennsylvania, and Chief Strategy Officer Kev Adjemian, who takes home \$394,000 in annual compensation while living in Laguna Beach, California.

Lithium-ion battery manufacturer EnerDel announced that it will invest \$237 million in a new manufacturing plant near its Indianapolis headquarters in order to meet anticipated demand for advanced battery systems used in both automotive and stationary smart grid applications. Backed by a mix of private funds and public incentives, the new facilities will ...
