What is the energy strategy for Guernsey?

The Committee for the Environment & Infrastructure is developing an Electricity Strategy for Guernsey. The strategy will consider expected future energy demand levels and set out how this demand could be met, whilst also reviewing how the market structure will need to change to support this.

What does energy independence mean for Guernsey?

Greater energy independence- A system where a greater and significant proportion of our community's energy needs are supplied through local energy sources. This will increase resilience by reducing exposure to external and geopolitical factors. The Committee for the Environment & Infrastructure is developing an Electricity Strategy for Guernsey.

How can Guernsey support a vibrant economy?

Supporting a vibrant economy - A clean, reliable, and affordable energy supply is a fundamental economic enabler. Establishing an environment for the development of on-island (including offshore) renewables will support the diversification and vibrancy of Guernsey's economy.

What is Guernsey's energy policy 2020-2050?

The Energy Policy 2020-2050 established that the vast majority of Guernsey's energy supplies will come from clean, low carbon sources by 2050 at the latest, local renewable generation will be encouraged and residual emissions will be offset. In order to deliver this, the six following objectives were agreed:
