

Energy storage technologies have the unique capabilities to keep the lights on when the power grid is under stress. In both Texas and California, energy storage technologies have prevented black outs during significant heatwaves--keeping people safe, power affordable, and the power on for businesses.

Energy-Storage.news reported a while back on the completion of an expansion at continental France's largest battery energy storage system (BESS) project. BESS capacity at the TotalEnergies refinery site in Dunkirk, ...

The Energy Storage Global Conference 2024 (ESGC), organised in Brussels by EASE - The European Association for Storage of Energy, as a hybrid event, on 15 - 17 October, gathered over 400 energy storage stakeholders and covered energy storage policies, markets, and technologies. 09.10.2024 / News

The Energy Storage Association is the leading national voice that advocates and advances the energy storage industry to realize this goal--resulting in a better world through a more resilient, efficient, sustainable, and affordable electricity grid. ...

The buildout will total 800MW/3,200MWh, comprising four facilities of 200MW, each with four hours" storage duration. Describing it as a "programme of great importance for the energy sector," the ministry said it ...

ESA brings the stakeholders of the energy storage industry together through ESA Energy Storage Conference & Expo, working to provide content to Accelerate markets, Connect its members and Educate stakeholders about the power of energy storage. Virtual #ESACon21: April 21-22, 2021; #ESACon21: December 1-3, 2021 - Phoenix, AZ

Malta Inc, developer of a grid-scale electro-thermal energy storage technology, has closed a Series B funding round, raising US\$50 million from investors that include Facebook co-founder Dustin Moskowitz. ... At last year's online edition of the California Energy Storage Association's annual summit, Malta VP of commercialisation Ty Jagerson ...

The project was first announced in 2018, with another 100MW project at Shannonbridge also unveiled. Together, the two battery energy storage systems (BESS) were set to involve a EUR150 million (&#163;135 million) combined investment, creating 240 jobs during construction and 10 subsequent to the systems going into operation.

Falling costs, rising value of energy storage. The final text of the Energy Storage and Grids Pledge for COP29 recognises the essential role both play in the power sector's decarbonisation, including facilitating the increased integration of renewable energy and providing stable and secure supply of electricity.

Also under discussion in the webinar - "EMMES 6: Can Europe meet 2030 REPowerEU targets without a storage strategy?" - was the EU's recent energy policy strategy, which primarily aims to wean Europe off Russian oil and gas but fell short on energy storage as Energy-Storage.news reported.. Alongside missing its broader renewable energy targets, ...

He has previously served as member of the Board of Directors of the US Energy Storage Association (ESA) for six years and was elected Vice Chair for the Global Energy Storage Alliance (GESA) in 2014. IESA is focused on the development of advanced energy storage, green hydrogen, and e-mobility technologies in India.

Small-scale battery storage pilot for Michigan utility Consumers Energy. Image: Consumers Energy. Michigan should target 2,500MW of energy storage deployments by 2030, a new report funded by the US state's Department of Environment, Great Lakes and Energy (EGLE) has recommended.

Energy system reliability in Armenia is now considered adequate, as investments in electricity and gas infrastructure, increased residential access to gas and operational improvements since the ...

Tesla is negotiating with the government of Armenia over supplying a grid-scale storage system, while Italy's grid operator revealed it is collaborating with the EV and smart ...

Armenia is currently prioritizing the expansion of interconnection capacities, nuclear generation, solar energy, and electricity storage capabilities. Further development of renewable energy ...

Ireland - Paddy Phelan, president, Irish Energy Storage Association "Energy storage is regarded as relatively new" in Ireland, Phelan says. The first projects to be handed contracts through the DS3 grid services ...
