

Energy storage cabinet transportation label requirements

Should refrigerated storage cabinets be covered by energy labelling requirements?

The scope for reducing their energy consumption is significant. Professional refrigerated storage cabinets should therefore be covered by energy labelling requirements.

Does a refrigerated storage cabinet need a printed label?

Article 3(1)(a) of Regulation (EU) 2015/1094 states that 'a printed label in the format and containing the information set out in Annex III shall be provided for each professional refrigerated storage cabinet', therefore the legislative text is quite clear on this point. 11.

What are the energy labelling requirements for household refrigerating appliances?

The current Energy Labelling Regulation sets energy labelling requirements for household refrigerating appliances and in doing so complements the Ecodesign Regulation. The scope of the current Regulation is household refrigerating appliances with a volume lower than or equal to 1500 l.

What regulations apply to refrigerated storage cabinets?

Regulation (EU) 2015/1094 and Regulation (EU) 2015/1095 apply to the refrigerated storage cabinets belonging to the professional sector, i.e. to those appliances intended for use 'in non-household environments but not for the display to or access by customers' (Article 2.1.a of Regulation (EU) 2015/10954).

What does EU 2015/1094 mean for refrigerated storage cabinets?

Commission Delegated Regulation (EU) 2015/1094 of 5 May 2015 supplementing Directive 2010/30/EU of the European Parliament and of the Council with regard to energy labelling of professional refrigerated storage cabinets (OJ L 177, 8.7.2015, p. 2).

What are the requirements for energy labels & Fiches?

Suppliers must produce energy labels and fiches in accordance with the regulations, and the supporting technical documentation, allowing their accuracy to be assessed. They must also: Energy labels for certain products are being gradually re-scaled to display A - G energy rating classes instead of A+++ - G energy rating classes.
