Why should you attend the Energy Storage Summit Central Eastern Europe?

If your goal is to meet other industry professionals and create valuable business partnerships to better understand the region, then the Energy Storage Summit Central Eastern Europe is the right place for you.

What is the Energy Storage Summit?

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead. One scenario estimates Europe will reach 29.6 GWh of installed capacity by the end of 2024, marking a 72% increase YoY.

How much energy storage does the EU need?

Over the next five years, the EU needs to achieve a mammoth 187 GW total installed storage capacity to keep on track. Of the 5GW currently under construction in GB, 3.5GW of this is set to come online in 2024 with pipelines continuing to expand into 2025. These are just some examples of the urgent need for energy storage deployment across Europe.

Why should you attend the Energy Storage Summit?

Over the past ten years, the Summit has gained recognition as the biggest, busiest, most informative, and best networking event in the European energy storage sector, where deals are made on site; generating efficient business for everyone who attends. workshops, an after-party, private networking dinners and much more!

Why should you attend a storage conference in September 2024?

Join us in September 2024 to meet with investors, developers, utilities, network operators, technology providers, EPCs, consultants, law firms and more to make sure you are a part of the conversation as the region prepares for storage to take off.

The double helping of news from the region comes a month after Solar Media's Energy Storage Summit Central and Eastern Europe (CEE) 2024 in Warsaw, Poland, which looked at the major drivers, opportunities and regulatory and ...

With regulatory hurdles one of the biggest challenges to large-scale deployment of Energy Storage in Central

# Energy storage summit central eastern europe U S Virgin Islands

and Eastern Europe, what are the lessons learned from the UK and how can these be implemented to achieve the net zero goals within the region and enable energy storage?

If you would like to enquire to become a sponsor of Energy Storage Summit Central Eastern Europe (23 - 24 September 2024) then please get in touch with the team today. ...
