Svalbard and Jan Mayen is a statistical designation defined by ISO 3166-1 for a collective grouping of two remote jurisdictions of Norway: Svalbard and Jan Mayen. While the two are combined for the purposes of the International Organization for Standardization (ISO) category, they are not administratively related. This has further resulted in the country code top-level ...

To meet these challenges, with innovative energy storage solutions and products, Entech smart energies helps developers, communities and utilities to significantly improve the quality of the network, to deal with the instability and unpredictability of these electricity production installations while reducing energy costs.
