Swiss Geo Energy est la filiale d'Ad Terra spécialisée dans le développement de projets et d'installations de production et stockage d'énergie renouvelable. Dans ce cadre, la valorisation des ressources énergétiques du sous-sol constitue la clé de voûte de notre stratégie. Notre base financière est privée.

Estonia: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO 2 - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

Estonia, known for its ambition and innovation, has charted an audacious path towards sustainability, aiming to power its future entirely with renewable energy sources by 2030. Bolstered by impressive strides in wind and solar power, the country is poised to become a beacon of clean energy within the European Union.
