What is SSE Pacifico doing?

SSE Pacifico is progressing a 6GW portfolio of early stage development opportunities by leveraging SSE Renewables' expertise in developing, constructing and operating offshore wind farms with Pacifico Energy's extensive local experience in Japan in local preparatory development work.

Will SSE Pacifico be able to develop floating offshore wind energy in Japan?

Success in this bid process will allow SSE Pacifico, alongside key development consortium partners, to build a greater understanding of deploying floating offshore wind energy technology in Japan, a key target market for offshore wind growth with the world's sixth (\*1) largest seabed area. Dai Karasawa, President of SSE Pacifico, said:

Does SSE Renewables own Pacifico?

SSE Renewables has closed the agreement to form a new joint ownership company, SSE Pacifico, which will pursue the development of offshore wind projects in Japan. The deal includes the acquisition by SSE Renewables of an 80% interest in an offshore wind development platform from Pacifico Energy.

How will SSE Pacifico get funding?

The funding will be awarded in phases as each project reach key development milestones. SSE Pacifico, which is 80% owned by SSE, is partnering with development consortium lead Marubeni Offshore Wind Development (MOWD) and other local partners in the successful bid.

This move comes as SSE Pacifico, the Japanese subsidiary of UK-based developer SSE Renewables, announces ambitious plans for a 6GW offshore wind pipeline in the country. Despite being heavily reliant on fossil fuels, Japan has set ambitious targets for offshore wind development, aiming for 10GW of capacity by 2030 and up to 45GW by 2040.
