

Does Estonia use natural gas?

Natural gas plays a relatively minor role in Estonia's energy system and is used mostly for heating. In 2021, natural gas accounted for just 8.6% of total energy supply (versus the IEA average of 30%) and came mostly from Russia.

What is the main energy source in Estonia?

However, oil shale remains the main energy source and imported fossil fuels still play a major role, especially in transport. Estonia's forests, which historically offset significant greenhouse gas emissions, have become a net emissions source.

What data does Statistics Estonia collect?

To produce energy statistics, Statistics Estonia collects the following data: stocks of energy products, imports and exports. In Estonia, a large share of energy is still produced from non-renewable resources such as oil shale.

Why did Estonia stop relying on Russian energy sources in 2022?

In response to geopolitical tensions, Estonia reduced its reliance on Russian energy sources by halting imports of Russian pipeline gas in April 2022 and banning all Russian natural gas and oil product imports, including LNG, by September 2022.

What percentage of Estonia's energy supply comes from Russia?

In 2021, natural gas accounted for just 8.6% of total energy supply (versus the IEA average of 30%) and came mostly from Russia. In 2022, Estonia took swift actions to end its reliance on Russian gas and secure regional gas supply and reduced gas demand to 5.8% of total energy supply.

How is Estonia ensuring regional gas security?

Estonia has taken steps to ensure regional gas security while working to reduce its gas demand and decarbonise its gas supply. Natural gas plays a relatively minor role in Estonia's energy system and is used mostly for heating.

Mr Jacquier, toute l'équipe STG Energy vous remercie chaleureusement pour votre retour d'expérience très positif ! Hervé Paratte 2024.09.30 Belle entreprise ! Concernant la vente de panneaux solaires, il a été tenu compte de Nos souhaits et de nos besoins, sans faire pression pour vendre davantage Beau travail, propre et personnel ...

STG Energy, Partenaire Environnement du FC Annecy en News sur 6 octobre 2023 23 octobre 2023 Partager Facebook Twitter Pinterest Courriel Le FC Annecy est heureux d'annoncer que la société STG ENERGY, spécialisée dans l'installation de panneaux solaires photovoltaïques, devient
