

Expander energy Saint Barthélemy

Who is expander energy?

Expander Energy is a Calgary based energy technology firm that has developed a patented suite of transportation fuel production technologies to convert Biomass into "Fossil Free" Low Life Cycle Carbon Intensity synthetic diesel fuel (SynDiesel™) and synthetic kerosene jet fuel (SynJet™). Proven renewable fuel technology that the world needs now.

What is expander energy ebtltm?

Expander Energy has developed a way to turn wood waste and other biomass into green, Net-Zero carbon emissions diesel fuel and plan to start production in 2024, 26 years ahead of Canada's Net-Zero Carbon emissions pledge. Expander's new Enhanced Biomass-to-Liquids ("EBTLM") shifts the paradigm for converting cellulosic biomass to Bio-SynDieselTM.

Where will expander build its first ebt facility?

Expander plans to construct its first EBTL facility in Slave Lake Alberta adjacent to the Vanderwell sawmill. This location offers the shortest timeline to commercial operation since Expander has completed a Front End Engineering Design package and obtained an Alberta Environment and Parks permit.
