The X-Pro1, the X-Pro2 and the X-E1 have a little nib at the side of the battery door which can be pulled out, and which leaves an opening for the cable of the CP-W126, so that you can close the battery door while the dummy battery is inserted in the battery cavity. I'd assume the X-E2 and X-E2S have this nib too.

Was there a AA battery pack specifically design...

It was NOT clear to me that "In the Box - Battery Charging Kit" was an in-camera battery charging system. In my opinion, that is not a good idea. I personally do NOT leave my camera sitting ...
