

Why is Fiji a strong supporter of Irena?

Fiji, a strong and consistent supporter of IRENA's mission, is one of those countries. As the costs of renewable energy technologies continue to decline, Fiji is increasingly able to make use of its full range of renewable energy resources. These include large and small hydropower resources, as well as biomass, geothermal, solar and wind energy.

What does Irena stand for?

3- IRENA, 2018. Renewable Energy Policies in a Time of Transition, s.l.: IRENA. a range of stakeholders with differing, often complementary, and sometimes divergent interests and motivations.

Is Fiji reviving the sugar cane industry?

Although sugar cane production in Fiji has been declining since 2006, the Government of Fiji is also keen on revitalising the industry. FSC plans to double its bagasse-fired power generation capacity by adding a total of 5-10 MW at Labasa by 2014 and 40 MW at Rarawai by 2016, respectively.

What is moej & Irena doing in Maldives?

MOEJ and IRENA continue the efforts to address these issues by organizing a three-day training program from 28-20 January 2019 in Male, Maldives to support the development of project proposals to access climate finance by various SIDS stakeholders through various entities including local banks and climate finance entities.

Does FEA impose a FJD tariff on IPPs in Fiji?

The Fiji Commerce Commission has ruled in May 2014 that FEA must offer FJD 0.3308/kWh to all IPPs. However, FEA argues that these tariffs only apply to firm power and not to intermittent power such as roof-mounted solar PV.
