When was the first off-grid solar system installed in Fiji?

In May 2002 Clay Energy commissioned the first off-grid solar base station power system for Vodafone Fiji, which led to the rollout of these power systems to six mobile operators in the region. Clay Energy's first PV grid-connect system (18kW) was installed and commissioned in 2008, being the first in the region.

Who is solar Fiji?

At Solar Fiji our competent staff install reliable solar-energy systems using top-quality components. We listen and learn from our customers at the same time as keeping right up to date with the latest training from our suppliers: Victron Energy, Hanwha Q-Cells and Narada Power - to name a few.

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.
