

How does Finland deal with rising energy prices?

To mitigate the impact of increasing energy prices, Finland has implemented measures such as reducing retail electricity prices, limiting profits for distribution system operators, exploring energy transition investment programs, and preparing a loan guarantee program to support energy efficiency and renewable heating systems (Fortum 2022).

Why is energy consumption so high in Finland?

Energy consumption per capita in Finland is the highest in EU. Reasons for this include energy-intensive industry, a high standard of living, a cold climate and long distances. Rise of energy consumption stopped in the 21st century, mainly due to changes of industry. There is now less heavy industry and the energy efficiency has improved.

What are the main sources of energy consumption in Finland?

Source: Statistics Finland, energy supply and consumption Source: Statistics Finland, energy supply and consumption 1) Peat, coal, natural gas, light and heavy fuel oil Source: Statistics Finland, energy consumption in households Finland in Figures only includes the key figures on Finland and Finns.

What is Finland's energy demand?

Finland's energy demand has fluctuated between 1 007 PJ and 1 114 PJ between 2005 and 2021, most of which is consumed by the industrial sector. Finland has achieved its 2020 energy efficiency targets for primary energy consumption (PEC) and final energy consumption (FEC).

What percentage of Finland's Electricity is produced by wind turbines?

Renewable energy sources met 54 percent of the country's needs, with the biggest growth in wind power. The amount of electricity produced by wind turbines soared by 41 percent to provide 14 percent of total consumption, Statistics Finland said on Thursday.

What is Finland's energy supply in 2021?

In 2021, Finland's Total Energy Supply (TES) comprised bioenergy and waste (33.6%), oil (20.8%), nuclear (18.5%), coal (6.3%), natural gas (6.4%), electricity imports (4.6%), hydro (4.1%), peat (2.7%), wind (2.2%), and heat (0.6%).
