With the new carbon fiber model, Sunbeam system offers a resistant solar panel that can be attached very quickly and easily on an existing Sprayhood/Bimini. The fabric of a bimini is not stable and stiff enough to carry a normal flexible solar ...

The installation of a solar energy system starts with the "vertical transport". With Sunbeam Supra en Sunbeam Nova you have an immediate advantage: the compact stacking of the materials means that the number of lifting movements is limited and therefore goes smoothly. And when you're finished, you don't have much packaging waste that to dispose of.

With long-life and high UV tolerant our solar panels can offer 5 years warranty. Our Shadow Optimized technology aims to minimize the real-life weather impact on your solar power energy system, such as daily clouds or sail shadows on ...
