FJ SOLAR is a start-up solar power solutions retailer, installer, operator, and distributor. We design and maintain solar photovoltaic systems that provide reliable and affordable clean electricity. Contact us to learn more about our off ...

Then a "good" battery can range from \$150-\$300. My solar panel cost \$225 and a solar controller can be bought for around \$50... that's basically all you need. The flexible solar panels are currently more expensive than the rigid versions from say Renogy or Zamp. A full Renogy 100W Mono Solar Starter kit is only \$189.
