Dive Insight: Sustainable aviation fuel, or SAF, has been considered the future of more climate-friendly flight by many energy experts. The Biden Administration has made developing the lower-emissions fuel a priority, setting a target to reach annual SAF production capacity of 35 billion gallons by 2050. It estimates that would be enough to meet 100% of ...

Author's chart. Source: Royal Gazette, 4 September 2024, and Saksith Saiyasombut, CNA This wave of dynastic succession -- the transfer of power or position within political families connected by blood or marriage -- appears to be a direct response to new legal precedents set by the Constitutional Court's verdict on 14 August. Then, the court ruled ...

Energy justice requires support for the equitable distribution of benefits and harms relating to energy production and consumption. It also requires inclusive and meaningful decision-making processes, measures to address exclusions in the energy system, and compensation for past harms. Ignoring some of these principles could lead to ineffective ...

1 ??&#0183; Since February 2024, the share of Chinese imports to total imports has soared in Thailand (Figure 1). It reached a peak at 37.4 per cent in June 2024, and only decreased slightly to 33.6 per cent in September 2024. A Chinese avalanche. Figure 1: China's Share of Thailand's Total Import (%) (January 2019 to September 2024)

Thailand has security concerns in Myanmar. In 2022, a Myanmar fighter jet trespassed into Thai airspace, threatening Thai border security, while the internecine conflict in Myanmar and subsequent sanctions on the junta have threatened Thai energy security. If a revolution occurred in Myanmar, this would affect Thailand's concessionary ...
