

GCL 370W photovoltaic panel

Are 370w solar panels a good choice?

A 370w solar panel is a great, high-output choice for residential projects- and with powerful panels you need less of them which means less space and less money required. A 370 W panel can also be used for powering your RV or boat. Usually mobile solar installations are relatively small in capacity.

How much does a 370 watt solar panel cost?

There are also some brands with premium-class PV modules that cost a lot: for example, 370w solar panel price is over \$400 with brands like Panasonic and Solaria. We offer a variety of 370 watt solar panels for sale from American, Asian and European brands.

Can a 370 watt solar panel power a boat?

A 370 W panel can also be used for powering your RV or boat. Usually mobile solar installations are relatively small in capacity. Depending on the number of appliances in your camper van or a boat, even one 370 watt solar panel can be enough to charge the house battery everywhere you go.
