

GCL Photovoltaic Panel Headquarters Address

Who is GCL Technology Holdings Limited?

GCL Technology Holdings Limited is a global pioneer in the research, development and manufacturing of high-efficiency photovoltaic materials.

How to contact GCL Tech?

Information and communication are key to making decisions. GCL TECH is willing to maintain communication with partners and investors from all walks of life. For product consultation, business cooperation, and other professional information, please feel free to contact us. GCL Energy Center, No. 28, Xinqing Road, Suzhou Industrial Park

Who is GCL new energy?

GCL New Energy has provincial branches all over the country, with 157 photovoltaic power plants operating in 26 provinces and cities, and we continue to expand our coverage of the green energy market territory. Our development team has extensive experience and over 400 members.

What does GCL do?

GCL targets at making PV-generated electricity affordable and inclusive for the public by its constant technology innovations in polysilicon, silicon wafers, cells, modules, system integration and photovoltaic power plants, continuous improvement of its management, regional layout and green energy certification systems.

What does GCL Tech do?

It steers the wheel of high-efficiency photovoltaic materials technology and is a main technology driver as well as a leading supplier of polysilicon, granular silicon, silicon wafers and other photovoltaic products. GCL TECH adheres to staying market-oriented and staying specialized with strong R&D investments.

Why should you choose GCL new energy?

From model selection, quality control to operation, maintenance and management, GCL New Energy makes comprehensive use of its big data analysis capabilities to support project and operations management and establish its enterprise brand.

GCL Technology Holdings Limited (GCL Technology for short) was founded in Hong Kong in 2006, listed in November 2007 (stock code: 3800.HK), included in the Hang Seng Composite Index and the HSML 100 Index in 2010, and put on ...
