Our expertise lies in designing and implementing customized solar solutions that align with your requirements.

Under a comprehensive Master Service Agreement (MSA), Energy Vision is entrusted with providing Energy-as-a-Service to a prominent operator in Gabon. Our scope encompasses a full spectrum of services, from engineering and equipment supply to implementation, logistics, refueling, O& M services, and upgrades.

Dans le cadre dudit projet, Solen SA Gabon, une filiale de Solen Renewables Dubaï, investira dans le dïveloppement, la construction et l'exploitation d'une centrale ...

By 2025, the government hopes that renewable energy in Gabon will account for 100% of the country's energy. Gabon plans to boost this with major infrastructure projects such as the Grand Poubara Dam, at a cost of more than \$190 million. Renewable energy in Gabon is not the only thing that has set this country on the green path.
