

Which countries are joining the Bess consortium?

In addition, Barbados, Belize, Ghana, Nigeria, Malawi, Mauritania, Mozambique, and Togo are joining. The Global Leadership Council of the Global Energy Alliance for People and Planet made this announcement. By the end of 2025, the countries aim to achieve 5 GW of BESS through the consortium.

How can a Bess consortium benefit low-income countries?

Renewable sources of energy with a combination of BESS are cheaper than fossil fuel power plants. As a multi-stakeholder partnership, the BESS consortium can bring the benefits of energy storage to low and middle-income countries.

What is the Bess consortium?

The BESS Consortium is a multi-stakeholder partnership set up to ensure these BESS benefits transform energy systems across low- and middle-income countries (LMICs). The Consortium is on track to meet its target of securing 5 GW of BESS commitments by the end of 2024 and deploying these by the end of 2027.

When will Bess be operational?

By the end of 2025, the countries aim to achieve 5 GW of BESS through the consortium. These systems are scheduled to be operational by the end of 2027. The consortium's initial 5 GW target will serve as a road map to a longer-term ambition of 90 GW of energy storage which is necessary in order to meet the 2030 goal of 400 GW of renewable energy.

How many Bess systems will be deployed in 2027?

The 5 GW of BESS systems are expected to be deployed by the end of 2027. Credit: [r.classen/Shutterstock.com](https://www.shutterstock.com/r/classen/Shutterstock.com). A total of 11 countries, including India, Egypt and Kenya have joined the battery energy storage systems (BESS) consortium at the 2023 United Nations Climate Change Conference (COP28), being held in Dubai, UAE.

What is Bess & why is it important?

BESS is a critical element in the deployment of renewable energy sources that are intermittent, such as sunshine, and can help increase grid reliability. How well do you really know your competitors?
