The Ay&#233;m&#233; Solar Power Station is a proposed 120 megawatts solar power plant in Gabon. The power station is under development by Solen, an independent power producer (IPP). The solar farm will be developed in two phases of 60 megawatts each.

nanosun. Thanks to our years-long experience in the distribution and wholesale supply of photovoltaic solar panels, inverters, construction, storage systems, EV chargers and other components for photovoltaics we offer only products that have proven to be highly efficient, reliable and cost-optimal.

In its second phase, the project will install an additional 60 MWp of solar photovoltaic panels, also equipped with a 15-hour battery energy storage system. This will form a 120 MWp solar power plant spread over a 251 hectare site in the locality of Ay&#233;m&#233; Plaine, located some thirty kilometres from the capital Libreville.
