What is Generac pwrcell?

PWRcell is the next step in Generac's 65 years of leadership in backup power technology. PWRcell brings you the longest lasting battery in a single cabinet, and the ability to flex the system as your power needs change. Uninterrupted Power Supply: How the Generac PWRcell Revolutionized these Homeowners' Lives!

Do I need a Generac inverter for my pwrcell?

Since the Pwrcell is a DC-coupled system, you'll have to use the Generac inverter that is provided with the Pwrcell. Automatic transfer switch: The ATS provides an automatic transition to back up battery power in a power outage. PV link: This helps optimize how power is generated by your solar panels and stored in the battery.

Is the Generac pwrcell right for You?

If you're looking for a fully-integrated solar +battery storage system, the Generac PWRcell is the right solution for you. PWRcell pairs with solar panels from most manufacturers. Your installer will help you determine the right panels for your home based on your needs and budget. PWRcell was designed for ultimate flexibility.

Does the Generac pwrcell work in a blackout?

The Generac Pwrcell allows you to customize just how much battery capacity you need. And you'll have room for an upgrade, too. Solar panels are gaining popularity for many reasons, but they won't help you in a blackout. You'll need a home battery system for that.

How much does a Generac pwrcell cost?

The Generac Pwrcell is estimated to cost between \$10,000 and \$20,000 before installation. Cost is reflective of how many battery modules you have installed: The higher your battery capacity, the higher the price tag. Other factors affecting price are location, the installer and the amount of solar on your roof.

Does Generac pwrcell work with solar panels?

The Generac PWRcell pairs well with solar panel systems, especially if your utility has reduced or removed net metering, introduced time-of-use rates, or instituted demand charges.
