

Which companies are using Bosch technology for battery production?

Stuttgart, Germany - Bosch is pooling its mechanical engineering expertise and offering companies factory equipment for battery production from a single source - ranging from individual components and software solutions to complete assembly lines. One of its pilot customers is Webasto, which is equipping its battery factories with Bosch technology.

Where are Bosch batteries made?

Bosch also uses its production know-how in its own plants: at its plant in Eisenach, Germany, Bosch is now launching full-scale production of second-generation 48-volt batteries. The company is investing some 70 million euros this year in expanding local manufacturing operations.

What makes Bosch a great battery company?

Bosch offers a portfolio of solutions ranging from 48-volt mild hybridization to fully electric drives and fuel cells. The company has experience in developing batteries for vehicles as well as for e-bikes, power tools, and kitchen appliances, and has extensive manufacturing expertise. Bosch intends to use this know-how to meet the growing demand.

Locate and find information about German Co. For Manufacturing Batteries in Shoubra El Khaymah, Kaliobeya, Egypt.
