

How many solar panels have been installed in Germany?

More than 500,000 plug-in solar systems have been installed in Germany, most of them taking up a seamless spot on people's balconies. New data shows another 220,000 PV devices were installed in the first half of 2024. A boom born from Germany's "very strong solar culture", in the words of one expert.

How many plug-in solar systems are there in Germany?

"The market is gigantic," plug-in solar advocate Christian Ofenheusle told DW. He runs the Berlin-based company EmpowerSource which promotes these relatively cheap mini systems. By 2030, he predicts there could be 12 million plug-in solar systems in Germany. Small solar systems are also becoming increasingly popular in China.

Are plug-in solar panels a viable option in Germany?

Germany is unique in its rabid embrace of the tech. Although increasingly popular in Austria, the Netherlands, France, and elsewhere in Europe, plug-in solar devices aren't viable in the United States due to costly permitting requirements and other local regulations.

When will a balcony Solar System be available in Germany?

800 W balcony solar system The Solar Package I strategy paper presented by the German Federal Ministry for Economic Affairs and Climate Action (BMWK) also provides for an early increase in the de minimis limit to 800 W inverter capacity. This is expected to be possible from January 2024.

Are plug-in solar systems gaining popularity in Germany?

Germany has seen a massive surge in the installation of plug-in solar systems. The number of small systems registered increased more than seven-fold in the first quarter of 2023 compared to the same period last year, according to official figures. "The market is gigantic," plug-in solar advocate Christian Ofenheusle told DW.

What is Germany's interest in plug-in solar?

German consumer interest in plug-in solar devices, also known as balcony solar systems, continues to exceed all expectations. Data from Germany's Federal Network Agency shows that the number of registered installations in the country increased from 137,000 in 2022 to 230,000 in the first half of 2023 alone.
