

What types of batteries does Wamtechnik offer?

We currently offer a series of BP and BPS, as well as HR and SHR batteries. You are very welcome to contact us about B.B. Battery products. Wamtechnik will process your personal data provided in the Contact Form in order to respond to your query.

Who is Wamtechnik?

With time, the range of our services grew, and now we can proudly say that Wamtechnik is a European leader in power supply systems and in the production of rechargeable and non-rechargeable battery packs.

Why did Wamtechnik partner with ion energy?

The partnership enables Wamtechnik to license ION's BMS technology platform. ION Energy's technology has utilized a 48V, 456Ah battery pack to power the primary model of the excavator. The battery pack is constructed using 10 parallel modules of a 14S16P cell configuration, to achieve the rated energy capacity.

How can ion help Wamtechnik improve battery life?

Wamtechnik leveraged ION's AI-powered battery intelligence platform Edison Analytics to visualize, predict and interpret battery data to improve battery life and manage their fleet.

Who supported Wamtechnik?

Wamtechnik also supported two teams: Proton Dynamic from the Warsaw University of Technology and PWR Racing Team from the Wrocław University of Science and Technology, helping in the assembly and integration of the batteries as well as providing the newest and most efficient 21700 high-power cells.

4) Lithium-iron-phosphate technology Li-FePO₄ (LFP) combines the advantages of large capacity, high current efficiency, long cycle and calendar life, and safe use. LFP cells have a nominal voltage of 3.2V - 3.3V. The designed lifetime of the cells reaches several thousand full charge/discharge cycles and up to 15 years of calendar life under optimal conditions.

Primary ER series lithium batteries are available in a cylindrical format, featuring high capacities. Using lithium-chloride-thionyl (Li-SOCl₂) technology, they deliver high energy density and high cell voltage in a very wide range of operating temperatures: from -55°C to +85°C.
