

Which companies are exploring Escos in Africa?

Safaricom are exploring an ESCO in Kenya, Ethio Telecom has issued a substantial ESCO RFP in Ethiopia, and Vodacom is exploring ESCOs in DRC and South Africa.

Why are Africa's MNOs partnering with ESCOs?

Africa's MNOs are among the largest power generators on the continent - they don't want to be! All these factors are driving a growing number of Africa's MNOs to partner with ESCOs. Towercos have made tremendous progress in improving uptime and efficiency in African telecoms.

Will Orange work with Escos in Africa?

By the end of 2020, Orange will be working with ESCOs in nine Sub-Saharan African countries- outside of their partnerships with towercos, almost all Orange's power systems in Africa will be operated by ESCOs. MTN plans to transition the majority of their 13,000 retained towers in bad grid markets to ESCOs.

What is the ESCO Symposium?

The symposium will gather ESCO stakeholders- ESCOs, ESCO associations, government representatives, financial institutions, and associated partners - to exchange on the current market situation, gain insights from peers, learn about new and upcoming trends and developments, and get the opportunity to further network and identify new opportunities.

This transaction is innovative and one of the first multi-country telecom ESCO financings in Africa which allows AktivCo SAS to finance its individual African operating companies directly without a parent company ...

La situation au Burkina Faso est tendue et délicate. Depuis 2016, des groupes djihadistes venus du Mali et du Niger se sont emparés du pays. Des milliers de personnes ont déjà été déplacées - les organisations de développement, autrefois nombreuses dans le pays, se sont raréfiées. Nous restons aux côtés des populations sur place, là où c'est possible.
