Where is greenex energy located?

Greenex Energy operates a network of storage facilities located in the ARA area, the Baltics, Mediterranean sea area. In order to constantly optimize our logistic operations and improve proximity to the consumer markets, we are continuously expanding our facilities in strategic locations.

Can Nepal provide green energy to South Asia?

Nepal could play a crucial role in providing green energy to South Asia by reducing the output of black carbon that accelerates climate change and pollutes the majestic Himalayas. But how can we ensure Nepal's energy production is in harmony with nature and local communities? FMO's 'Environmental and Social' sector initiative is a good start.

Will Green Hydrogen meet the feedstock requirement to produce urea in Nepal?

To meet this demand, the annual green hydrogen demand is around 82,475 tons, and this demand is exceeded by the hydrogen produced which utilizes 40% surplus energy by the year 2025. This implies that the green hydrogen has the potential to meet the feedstock requirement to produce Urea in Nepal.

How can Nepal become a hydrogen-based economy?

Nepal needs to focus on utilizing abundant hydro-energy to produce green hydrogen for sustainable energy solutions and for the transition to a hydrogen-based economy, balancing the future energy distribution scenarios: increasing the share of renewables and electricity.

Is Nepal a good place to invest in green energy?

Nepal - the landlocked Himalayan country, sandwiched between Asia's two most populous nations, India and China - has the potential to hold a key position on the subcontinent when it comes to green energy. Its rivers that sprout from the highest mountains in the world, offer a vast potential for hydropower in the region of 40,000 megawatt.

Can Nepal produce hydrogen from existing hydropower plants?

A study done in 2008 projected that Nepal has the potential to produce hydrogen from existing hydropower plants during the off-peak load by utilizing surplus electricity. The possibility of utilizing produced hydrogen energy to replace the existing fossil fuels was also done in the study.
