

Goldi solar panel price list Indonesia

How much do solar panels cost in Indonesia?

Across the world, the cost of solar panels is declining, and Indonesia is no different. The price of solar modules dropped from USD 4.12 per watt in 2008 to USD 0.17 per watt in 2020. This translates to lower costs for solar energy, which are around USD 0.04 per kWh.

What are the best solar panels for landed homes in Indonesia?

The most popular solar panel brands in Indonesia are typically the more affordable top Chinese manufactured panels in the list such as LONGi, Jinko, Trina, JA Solar, etc. Here's a rough estimate of the standard system cost for landed homes in Indonesia. Remember that installation costs will also vary depending on the above factors.

Can solar panels be installed on a roof in Indonesia?

Solar panels can be installed on almost all roofs. That said, your roof's material and type determine if additional materials for installation (such as racking and mounting systems) are needed -- which will add to your installation cost. In Indonesia, most roofs are pitched and tiled, though a small proportion use metal sheet or flat concrete.

Does Indonesia have a potential for solar energy?

Cirata Reservoir floating solar power plant. Source: Solar Industry Indonesia has significant potential for solar energy. However, it has remained largely untapped. The country's 2030 and 2060 decarbonisation goals heavily rely on the industry's rapid expansion. The capacity of solar energy in Indonesia is steadily climbing.

Who are the fastest growing solar companies in Indonesia?

One of the fastest growing companies in Indonesia, they currently have a portfolio of over 30 MWp solar projects, only 4 years into operation. They have completed more than 3000 residential solar installations to date. Based in Jakarta, ATW Solar also has a Solaristic Showroom powered by solar panels.

Could foreign companies be involved in Indonesia's solar power growth?

The project was a joint venture between Indonesia's state utility company and Masdar, a United Arab Emirates-based renewable energy company. It highlights the potential for foreign companies to be involved in Indonesia's solar power growth and signals a favourable regulatory and economic climate for investors.
