You would need the inverter PLUS when you get solar panels, you would have to invest in a solar charge controller (or possibly several) to provide the ability to recharge from solar. On the plus side, if your charge controller goes down, you can still use every other aspect of the system till you replace it (and it doesn't matter what SCC you ...

This versatile combo package features a 3.5KVA / 3500W 24V Hybrid Inverter paired with a 2.56kWh 24V 100AH Lithium Battery. Ideal for powering small appliances such as fridges, TVs, lights, and charging phones, this setup ensures reliable and efficient energy supply. The hybrid inverter provides seamless switching between solar and grid power, while the lithium battery ...
