Can wind & solar power survive extreme conditions in Greenland?

Partnering with a northern settlement in Greenland, researchers are designing wind and solar devices that can survive and thrive in extreme conditions. Qaanaaq, with its roughly 600 residents, is the northernmost town in Greenland. Credit: Mary Albert

Does Greenland have a future for renewables?

Although Greenland has made great strides in installing renewables, these changes have so far mostly benefited larger communities in the south of the country. Making cheap, accessible renewables work in Qaanaaq has the potential to "be good not only for this community, but for all Arctic areas", however remote, Oshima says.
