

Greenvolt power South Sudan

Who is greenvolt power?

At Greenvolt Power, we are dedicated to driving the transition to a clean energy future through wind energy solutions created by experts specialized in the development and construction of wind projects. We guide each project from the initial planning stage, providing reliable, efficient and sustainable energy infrastructures.

What is greenvolt & how does it work?

Greenvolt reduces waste and values forestry residues to create renewable energy with a positive impact in the economy and environment. Endless resources like wind and sun produce the cheapest electrical power. They are everywhere and available to everyone. Energy for all without borders or limits.

Who is the CEO of greenvolt power?

The group's CEO, João Manso Neto, showed how Poland is a key market, as well as its potential and Radek Nowak, CEO of Greenvolt Power, was also present, sharing the achievements made over the years in the renewables market and also talking about future projects with a focus on BESS.

Who is greenvolt group?

Greenvolt Group offers a variety of individual or collective self-consumption solutions to generate electricity on-site or close to where the energy will be used. The acquisition of several companies and partnering with the management teams allowed us to build an in-depth knowledge and expertise in each segment we operate.

Which part of the value chain does greenvolt operate in?

Greenvolt is operating in the most upstream part of the value chain: project development. This area of operation is not so capital intensive but is very demanding in terms of know-how and expertise. It covers all activities from the design of the project to its permitting and construction.

Does greenvolt use biomass?

Individual and Collective Self-consumption Greenvolt is rapidly expanding its business in three sectors across an increasingly number of geographies. Greenvolt only uses biomass fully aligned with the cascading use principle, producing energy exclusively from forestry residues, agro-forestry residues or from waste wood.
