

Guam residential solar panels

Why choose generation renewable - Guam?

I am extremely pleased with my solar system from Generation Renewable - Guam. I was paying more than \$400.00 for power to GPA before getting a solar system from Generation Renewable - Guam... I was never really able to save money on power until I got a solar energy system from Generation Renewable - Guam...

Does Guam have solar energy systems?

Until 2015, only a few off-grid photovoltaic systems (PV) and some distributed generation PV and small wind turbines were in use on Guam. Plans for several large solar farms have been announced. Guam has adopted a renewables policy that requires the reduction of fossil fuel consumption by 2020 to 20% less than the rate in 2010.

Does Guam have plans for a solar farm?

Guam has announced plans for several large solar farms. The island has adopted a renewables policy that requires the reduction of fossil fuel consumption by 2020 to 20% less than the rate in 2010. Another requirement is for 5% of electricity in 2015 to be from renewables, increasing to 25% by 2035. A net metering program began in 2009.

A: At Generation Renewable - Guam, our designers will design your system where your energy bills are zero out from the kilo-watt hours that you have been averaging over the last 12 months, checked with our client profile sheet that will alert us to any upcoming changes that might occur such as people leaving or moving into the dwelling, a sudden upgrade of new efficient ...
