

Gurin energy United States

What is Gurin Energy?

Gurin Energy is a new outfit that will develop new wind and solar power projects across Asia, with an initial focus on the Philippines, Thailand, and Japan. The growth in the new company will help replace assets sold in Infratil's divestment of Tilt Renewables.

Where is Gurin energy based?

To be based in Singapore, Gurin Energy will focus on new renewable projects across Asia. The renewable energy developer will invest in greenfield wind and solar photovoltaic (PV) energy projects, and storage solutions in the continent, including Southeast Asia, India, and North Asia.

Is Gurin energy advancing a 500MW pipeline?

Infratil said that Gurin Energy is already advancing an initial pipeline of projects of 500MW at various stages of development in the Philippines, Thailand, Vietnam, Japan, and Indonesia.

Does Gurin energy offer equal opportunities?

Gurin Energy is committed to a diverse, equitable and inclusive workplace, and we provide equal opportunities for employment.

Why should you choose Gurin energy?

Gurin Energy is committed to the highest environmental, social and governance criteria wherever we operate. With flexible and evergreen capital, we can optimise our portfolio in response to market conditions and move swiftly to seize opportunities across the full lifecycle of project development.

How does Gurin energy work?

Gurin Energy works closely with local communities to ensure that projects are developed in harmony with their surroundings. Robust design and engineering is essential to allow this abundant natural, emission-free source of energy to be harnessed safely and efficiently.
