What is CSI Energy Group?

CSI Energy Group is a diversified network of companies providing sustainable solutions to the energy sector across Africa with 24,588 followers on LinkedIn. They believe that access to electricity is a human right and exist to enable Africa's Just Energy Transition and improve access to electricity.

What will Guyana's Power Supply look like in 2025?

Guyana's transmission and distribution lines also will undergo upgrades. Demand on its main power grid, which supplies 78% of the country's energy needs, is expected to rise to 415 megawatts (MW) in 2025 from 126 MW last year, the president said. Guyana has some of the highest electricity rates in the region but power outages are frequent.

Why did CSI Energy Group celebrate 100,000 man-hours with no injuries?

We celebrated our North Mara Filtration Plant project team in Tanzania for achieving 100,000 safe man-hours with no injuries! This milestone is crucial because it shows that our team can work efficiently while staying safe, which protects our people and keeps our projects on track. A proud moment for all of us at CSI Energy Group.

How much power does Guyana need?

Demand on its main power grid, which supplies 78% of the country's energy needs, is expected to rise to 415 megawatts (MW) in 2025 from 126 MW last year, the president said. Guyana has some of the highest electricity rates in the region but power outages are frequent. Many manufacturers have opted to generate their own electricity.

Does Guyana have electricity?

Guyana has some of the highest electricity rates in the region but power outages are frequent. Many manufacturers have opted to generate their own electricity. Most Guyanese live along the coast, where power is generated from old diesel plants that are mostly in need of upgrade or replacement.

How many projects has CSI completed in total?

CSI Energy Group has completed more than 200 projects with over 25 years of experience. They have worked within the following sectors: Renewables, Power & Infrastructure, Oil & Gas, Mining. For more information, please contact us at contactus@csi.energy.

CSI Energy Storage, a subsidiary of Canadian Solar, has secured a contract to supply up to 550 MWh of battery storage capacity to the UK-based Pulse Clean Energy. The 550 MWh of capacity is equipped with CSI Energy Storage's proprietary solution, SolBank, and will be deployed at several of Pulse's sites.

This supply agreement builds on the partnership between CSI and Aypa Power announced in February 2023.
