Solar power works by converting light from the sun into electricity. This electricity can then be used in your home or exported to the grid when it's not needed (Soon to be available in Guyana). This is done by installing Solar Panels on your roof ...

The Government of Guyana has designated eight solar farms along Guyana's coast, with project summaries submitted to the Environmental Protection Agency (EPA) outlining an anticipated generation capacity of 33MWp. Funded by the US\$83.3 million from Norway earmarked for forest conservation, these s

Source: Guyana's Low Carbon Development Strategy 2030 (NG - Natural Gas, RE- Renewable Energy) With these finances earned by Guyana's first LCDS, a significant project on renewable energy is being implemented -- the Guyana Utility-Scale Solar Photovoltaic Programme (GUYSOL), which commenced in June 2022.

Guyana how to buy solar

The Government of Guyana (GoG) has officially opened the Request for Proposals (RFP) for Phase II of the Gas-to-Energy (GTE) Project. The RFP, launched on September 18, 2024, invites qualified firms to submit proposals to design, finance, and operate the next phase of the project, based on a 20-to-25-year Power Purchase Agreement (PPA).

These projects are part of the Guyana Utility-Scale Photovoltaic Programme (GUYSOL), a government-led initiative designed to diversify the nation's energy mix by incorporating large-scale solar farms. This is a key element in Guyana's strategy to achieve sustainable and resilient energy systems.
