

Haiti hitachi energy technologies llc

Who are RTE & Hitachi energy?

Following an international call for bids, RTE, the project owner of the connection of offshore wind farms, has selected the Chantiers de l'Atlantique and Hitachi Energy consortium to carry out the execution of offshore and onshore conversion stations for the future offshore wind farms in Normandy and Oleron.

How can Haiti improve its energy system?

As an island nation with an evolving yet vulnerable power grid, Haiti must strategically integrate resilience into its energy system planning. Leveraging investments in renewables, distributed energy resources, and energy storage is key to improving the resiliency and security of Haiti's power system and electricity supply.

What services does Hitachi energy offer?

We offer Power Consulting for key segments in the energy system, such as renewables, transmission distribution and as well as e-transportation solutions. Hitachi Energy is a leader in high-voltage technology, offering a wide range of high-voltage products up to 1,200-kilovolt (kV) for AC and 1,100-kilovolt for DC.

Will USAID and NREL reshape Haiti's energy landscape?

In a bid to reshape Haiti's energy landscape, USAID and NREL will support Haiti's ministries and government in formulating the country's Integrated Resource and Resilience plan, which is a comprehensive energy sector master plan that envisions a sustainable, secure, and resilient energy future for Haiti.

Why is electricity so expensive in Haiti?

This leaves the country vulnerable to global oil price fluctuations, which directly impact the cost of electricity. Haiti also faces challenges in terms of lack of grid access, reliability of electricity service, and the prevalence of wood and charcoal fuels for home energy consumption.

Who is Hitachi energy's grid automation business unit?

Hitachi Energy's Grid Automation business unit supports 50% of the top 250 global electric utilities. Our Grid Automation hardware, software and services portfolio unites deep domain knowledge and innovative technologies that enable customers across the globe to optimize the critical systems that power, move and connect us.
