

Robert Holcomb never had invested a single dime of his own money into Holcomb Energy. In Fact it had been a 15 year money raising operation for both Rllen and Robert Holcomb. Sucked millions of dollars from hundreds of investors and continue to do so. This is how they survived for 15 years. His science is BS.

Holcomb Scientific Research Ltd. (HSR), ein Forschungs- und Entwicklungsunternehmen, gab mit der Einführung des Holcomb Energy System (HES) einen wissenschaftlichen Durchbruch bei der Erzeugung von 100 Prozent sauberer Energie bekannt. The Holcomb Energy System. The HES is a labor of love, born out of a desire to contribute to the greatest cause of our time. After 13 years of extensive research and product development, we are proud and ready to showcase our invention to the world. The HES works by harnessing the natural energy from the electron spin in the iron atoms of ...

The Holcomb Energy System has recently evolved from 15 years of research and development to a market-ready product. We are currently finalizing several contracts in the worldwide residential, commercial, transportation, and energy markets. You will be hearing more in the coming months about where you can purchase your own HES system and take ...

Holcomb Energy Systems is dedicated to the research and development of a better future. Our mission is to develop technologies to support a high quality of life for everyone on a healthy and stable planet. Everyone deserves clean electricity, clean air and clean water. We are an energy company but we are also a "people" company.

The Holcomb Energy System, ILPG, and Phase Converter all have two stators, inner and outer, and no rotor whatsoever. The system seems to contain two co-rotating magnetic fields with the same but oppositely oriented amplitudes, which periodically shrink and expand ferromagnetic domains between itself in a symmetrical way, so that the domains don ...

The Holcomb Energy System requires no grid infrastructure. It can operate anywhere, even in the middle of the Sahara, providing 100% zero carbon footprint power to any size load, using no fuel. And because it operates with no moving parts, there's no heat and no wear and tear, so it requires very little maintenance.
