

How much does battery storage cost?

The lifetime cost of small scale battery storage is now around 13p per kWh. This is the cost 'per cycle' of charging and discharging 1 kWh (excluding the cost of the electricity used to charge the battery). In the residential arena, battery storage is starting to make sense in two applications:

Is battery storage VAT-free in the UK?

This is a big deal because VAT is 20% in the UK, so this makes battery storage much more wallet-friendly. Buildings used solely for charitable purposes also qualify for the tax-free battery storage benefit. (Rooftop solar is already VAT-free.) Previously, domestic battery storage was only VAT-free if combined with solar.

Can you get a free storage battery if you have a mortgage?

There are plenty of solar panel grants and schemes that offer solar & battery systems, but none that provide free standalone storage batteries. However, if you have a mortgage with Barclays, Halifax, or Lloyds, you may be able to access a £1,000 cashback after you get a storage battery installed, thanks to their green home rewards schemes.

What is a battery energy storage system?

Storage batteries, or battery energy storage systems (BESS), can store electricity from a variety of sources, including the grid or renewable sources like wind or hydroelectric power. Their primary role is to hold electricity for later use, but it doesn't actually matter where this electricity comes from. How does it work?

Can battery storage reduce your bills?

Cut your bills. When paired with a solar PV system, battery storage can reduce your bills by as much as 90%. With our modular battery storage solutions, your system's capacity can grow over time, depending on your needs. Monitor the health and performance of your battery in real-time, in-app, 24/7.

What is the best tariff for a storage battery?

The best export tariff to use with a standalone storage battery is British Gas's Export and Earn Plus rate. This tariff will pay you 15.1p for every kWh you send to the grid - one of the top rates around - and all you need to do is get a battery and import your electricity from British Gas.
