

# Home installation of solar power generation scam

Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

Is going solar a scam?

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar panels. Here's how to steer clear of the scams: Do some research.

How do you know if a solar system is a scam?

Ask for a list of satisfied customers and look at customer reviews online. Know that the government won't offer you free solar. The federal government does not install residential solar panels for free; if someone is claiming otherwise, it's probably a scam. If it seems too good to be true, it probably is.

Are rooftop solar panels a scam?

While rooftop solar panels are becoming increasingly ubiquitous in homes throughout the United States, the industry also has a more sinister side: a seemingly widespread problem of fraudulent business practices that has cast a shadow over many solar panel companies.

What should I do if a solar business is a scam?

Protect your personal information. Don't respond to unexpected requests online or on social media for your name, address, or other personal information to "see if you qualify." At best, this is someone generating leads to sell, not actual solar businesses. At worst, they're scammers trying to steal your identity.

Does the federal government install solar systems in homes for free?

The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy. Take your time.
