

House battery bank Vatican City

What is the Vatican Bank?

The Vatican Bank is also known as the Institute for the Works of Religion. This is a private institute which is located within Vatican City and it is run by an advisory board who gives report directly to the pope and a committee of cardinals. The Vatican Bank was established in June 1942 by Pope Pius XII.

Does the Vatican Bank control monetary policy?

It is not the responsibility of the Vatican Bank to oversee the monetary policy of the Vatican City nor to control the money supply and maintain stability of a currency. However, the bank is a prosperous and money-making institute although its entire surplus is used for religious and charitable purposes.

Who is the current head of the Vatican Bank?

The current head of the Vatican Bank is Ernst von Freyberg who was recently appointed to the position and has promised to ensure transparency within the institute and win back the trust of people. He was appointed to the position in February 2013 by Pope Benedict XVI just before his resignation.

How is the Vatican Bank different from other banks?

The Vatican Bank is different from many other ordinary banks. The bank does not lend money, and it does not make direct investments. The bank receives money as deposits and then invests it in government bonds, some corporate bonds and in the inter-banking market where it deposits with other banks for a slightly higher interest rate than it receives.

Does Vatican Bank have a transparency drive?
