

How long can the storage cabinet you built yourself last

How long do kitchen cabinets last?

Cabinets begin to show signs of age after about 20 years, such as doors that don't fully close, drawer fronts coming loose, and surface dings--especially at heavily used areas like below the sink. Kitchens are also one of the most popular remodeling projects, and cabinets are often replaced at about the 30 to 40 year point because they are outdated.

When does a storage cabinet look finished?

No storage cabinet looks finished until it receives a paint or stain treatment to protect and beautify the plywood and solid wood surfaces. While optional, this finishing process is recommended to keep your cabinet looking its best for years.
