

How long is the warranty period for flexible photovoltaic panels

How long is a solar panel warranty?

Solar panel warranties vary depending on the manufacturer, but in the solar industry, a 10-year product warranty and a 25-year performance warranty are typically considered the minimum standard. However, some manufacturers provide a 25-year product warranty and extend the performance warranty to 30 years. How Much Does a Solar Panel Warranty Cost?

What should I look for in a solar panel performance warranty?

Ideally, you should look for a solar panel performance warranty with the following conditions: Some solar manufacturers will guarantee a degradation rate as low as 0.25% per year, and a performance warranty period of up to 30 years. The best solar companies offer homeowners an installation warranty of their own.

How do I get a solar panel warranty?

Generally, the most robust warranties are obtained by hiring installation companies certified by the solar brands they represent. Alternatively, long warranties can also be secured from solar manufacturers that provide their own installation services. What Is Not Covered by a Solar Panel Warranty?

What does a solar panel warranty cover?

The warranty typically covers the solar panels themselves, as well as the inverters and other components of the solar panel system. The warranty may also cover the labor and materials used in the installation of the panels, as well as any defects or issues that may arise with the panels during the warranty period.

Why are solar panel warranties important?

Solar panel warranties are important to make sure you get the expected electricity savings over time. For example, if your solar energy system is expected to save at least \$1,200 per year, a 25-year warranty means you get \$30,000 in guaranteed savings. Solar panel warranties also help you qualify for favorable loan conditions.

Can a solar panel warranty be void?

The following are some common ways in which a solar panel warranty can be voided. Most solar manufacturers only offer a warranty if your PV system is installed by professionals. In other words, you will most likely void the warranty if you attempt a DIY installation, even if you manage to install the panels properly.
