

How to complain about Chint Solar Power Generation

Does Chint still make solar panels?

CHINT is a big company -- as in billions of dollars of revenue each year big. It's also diversified, which means they do more than just make solar panels. Hopefully, this increases their odds of still being around in the future to honor their solar panel warranties. The company was founded in 1984 and has around 30,000 employees.

Do solar companies have a Consumer Protection Bureau?

Some states also have consumer protection bureaus where consumers can file complaints. While the advisories are an attempt to educate consumers, previous government efforts to regulate solar companies have fallen short.

Do solar companies rely on independent contractors?

Solar companies rely heavily on independent contractors incentivized to make a sale. These door-to-door salesmen have little obligation to ensure that consumers are getting a good deal; in fact, some get more money the higher the price they charge consumers for a system.
