How do I install rigid solar panels on my roof?

EcoFlow's rigid solar panels come with a EcoFlow Tilt Mount Bracket for easy rooftop installation. The components include four fixing brackets, two adjustable brackets, and screws. This should be all you need to mount rigid solar panels on the roof or any other flat surface on your home that receives direct sunlight.

How do I choose a solar panel for my home?

The best option for you is most likely the flat surface on your home that receives the maximum exposure to sunlight. For irregular surfaces, you can augment your rigid solar panel array with flexible solar panels. Flexible solar panels don't produce enough rated power to be the sole choice for a residential PV array.
