

How to repair photovoltaic bracket under warranty

Are solar panels covered under warranty?

If you have a warranty on your solar system, check to see if the damage is covered before proceeding with repairs. In most cases, the damage will not be covered under warranty, but it is always best to check. When selecting an installer for Solar PV installations, always ensure they have the correct qualifications to undertake the task.

How to fix a broken solar panel?

The first step is to identify the broken solar panel. Once you have found the broken solar panel, you will need to remove it from the system. To do this, you will need to disconnect the power from the solar panel and then remove the screws that are holding it in place. Once the solar panel is removed, you can now proceed to the next step.

Do solar panels need repairs?

Solar panels require repairs for all sorts of reasons. Some are simply old while others become physically damaged. Whatever the cause, repairs are often necessary to help maintain your solar panel's overall performance. Here, we answer some of the common queries about solar panel repairs. What is the lifespan of a solar panel?

What if a solar panel is damaged?

If a solar panel has been damaged and compromises the system's performance, it will need to be replaced with a new compatible panel. If you have a warranty on your solar system, check to see if the damage is covered before proceeding with repairs. In most cases, the damage will not be covered under warranty, but it is always best to check.

Can a solar inverter be replaced under warranty?

If your solar panel system is new, you might be able to get your inverter replaced under warranty. If you have the skills needed, you might be among the 2% of those who'd needed a replacement who were able to carry out the job themselves. But the majority (82%) hired a professional.

Do solar panels come with a power production guarantee?

Some of the top-quality solar panels come with a power production guarantee. Check with your manufacturer. It could be that your panels are under guarantee, helping to cover the cost of repair or replacement if they've dipped below a certain production level. Find and book your trade with us and we'll guarantee their work up to £1,000*.
