

# How to sell photovoltaic panels for free

Can you buy solar panels outright after a lease term?

At the end of the lease term, you may have the opportunity to buy the solar panels outright; otherwise, the solar company will remove them. "Free" solar panels will save you money because energy from solar power is usually less expensive than energy from the electrical grid.

Should you sell solar panels door-to-door?

Going door-to-door is a great place to start selling solar-- even though it might sound a bit old-fashioned at first. Take Vivint, the home security company, for example.

How much does it cost to recycle solar panels?

According to Sam Vanderhoof, CEO of Recycle PV Solar, only 10% of decommissioned solar panels in the United States are recycled; the rest flow to landfills or are allocated for reuse. The primary reason for this is the cost to recycle, which varies from \$15 to \$45 per panel. Whereas landfills typically charge \$1 to \$2 per panel.

Are solar panels worth resale?

However, disposing solar panels in landfills is throwing away something of value. If the panels are still functioning, then there's likely a resale value. If they're truly at end-of-life, then valuable materials, such as silicon, copper, aluminum, silver, and glass can be extracted during the recycling process and reused.

Are used solar panels resaleable?

Regarding resale, the concern of whether used panels are safe and functional comes into play. Instead of assuming that all used panels are trash, conduct an audit during decommissioning to determine if reuse is possible. "Waste panels often aren't waste," states Adam Minter, author and journalist for Bloomberg Opinion.

What happens when a seller posts solar equipment for sale on energybin?

When a seller posts solar equipment for sale on EnergyBin, the seller maintains the ability to manage the inventory and make modifications to the listing as needed. The seller chooses to impose a minimum volume order, or the seller can parcel out smaller quantities.

The final step to get started selling solar is to create a sales/pitch deck and plan that will help you sell effectively. Build your pitch deck Regardless of how you choose to sell (remote-only, door ...
