Recognizing this pressing need, Aptech Africa saw an opportunity to make a meaningful impact by designing, supplying, installing, and commissioning a 51.2kWp ground-mounted solar system in Sierra Leone.

At the end, a total of 6,657 households in rural Sierra Leone were illuminated for the first time, with access to clean and sustainable electricity provided by the containerized solar power solutions from Asantys Systems GmbH. This milestone achievement represents a significant step towards improving lives and fostering development in the region.

An effective solution that allowed the start-up to provide access to electricity to 40,000 people in Sierra Leone (2018). To install its solar kits, the Freetown-based company relies on its 35 employees and 40 agents. A model that interested the Schwab Foundation. But it was above all the figure of Nthabiseng Mosia that motivated the members of ...

Solar power has the potential to transform Sierra Leone's energy landscape and provide clean, reliable energy to its people. With the right policies and investments, Sierra Leone can harness ...

Easy Solar makes clean energy affordable to off-grid communities by distributing solar-powered devices and other life improving devices on a rent-to-own financing structure. Easy Solar started operating in 2016 in Sierra Leone. They initially performed a customer survey of 2,000 households in January 2016, followed by a 200 customer pilot in March of the same year and the team ...

Sierra Leone's electrical grid, which operates on 230 Vac 50 Hz, will frequently go down and leave residents of the area with no power whatsoever. AIMS Power provides products to help residents of Sierra Leone achieve energy independence, and we'll deliver them right to your doorstep for the cheapest price possible.

The World Bank Country Director in Sierra Leone - Mr. Yusupha Babatunde Crookes, said that "electricity

reaches less than 10 percent of the population in Sierra Leone and its cost is one of the highest in the sub region." ...
