

# Huaneng Wind Power Ship City Power Station

Where is Huaneng Power International's 320 MW floating PV plant located?

Huaneng Power International has switched on a 320 MW floating PV array in China's Shandong province. It deployed the plant in two phases on a reservoir near its 2.65 GW Dezhou thermal power station. Huaneng Power International (HPI) has completed the world's largest floating PV project - a 320 MW facility in Dezhou, in China's Shandong province.

How much power does Huaneng have?

During the last two decades, Huaneng's total installed capacity of wholly-owned and majority-owned power plants increased more than 10 times, exceeding 200 GW by 2021, and total assets rose more than 13-fold to 1.31 trillion yuan (\$18.82 trillion).

Why is Huaneng a leading power plant management company?

Through its rapid growth, Guo said Huaneng has built up extensive experience on the management of power plants including project development, operation and maintenance, technical upgrade, and renewable technologies.

Will Huaneng Power build a solar plant in Fengcheng?

Huaneng Power also plans to build a 2 GW solar plant in Fengcheng, Jiangxi province. The experimental array will include floating PV, agrivoltaics and solar parks on fishponds. The first 320 MW unit will be completed this year, with the rest of the capacity to be installed by 2026.

Could Huaneng be a bridge for China and China?

Noting the UK is one of the countries that first advocated net-zero, Guo said Britain has demonstrated responsibility in addressing global climate change and is confident that Huaneng, as an experienced power industry investor, could act as a bridge for the development of the Chinese and British economies that complement each other.

Is Huaneng Group's 'Go Global' Strategy a success?

At a time when developing renewable and green energy has become a global priority, Chinese power generation company Huaneng Group's "go global" strategy has been hailed as a "success" story.

The project is located in the southern waters of Haiyang City, Shandong Province, with a total installed capacity of 301.6 MW and 58 sets of 5.2 MW wind turbines. It is ...
