

How many solar panels are installed in Hungary?

Hungary reached a cumulative installed PV capacity of more than 700 MW last year, according to provisional numbers given to pv magazine by Szolnoki, president of the Hungarian Photovoltaic Industry Association. Szolnoki said 2018 was a record year for solar deployment in the country with 410 MW of new capacity.

What is the largest solar project in Hungary?

Duna Solar Park is located in Central Hungary in Pest County, near Székesfehérvár, and is the largest solar project in the region. Like Kaba Solar Park, the MET group built it, and together the two solar projects have a capacity of over 50 MW. Built in 2019, Székesfehérvár Solar Park has a capacity of 16.5 MW and is the largest solar project in its county.

Which brands are best for solar installations?

Understanding the importance of quality and reliability in solar installations, we emphasize the benefits of sourcing from well-known brands such as Fronius, Deye, SolarEdge, SMA, Solplanet, Solax, Risen, Ulica, Longi, Trina, and BYD.
